Following November’s meeting of INTO Northern Committee, proposals were agreed to further escalate the industrial action in schools.

INTO members are therefore instructed, until notified to the contrary, to continue with the latest programme of Action Short of Strike as set out in the September 2015 Bulletin 2 (see website).

- **In addition** to the above action, teachers are requested:

  o Not to accommodate any requests from their principal or any member of staff to make pupil workbooks available for any internal evaluations or monitoring (book scoop);

  o Not to take part in any form of classroom observation outside the agreed PRSD scheme unless carried out by the school principal. (The principal may not delegate this duty). Such classroom observations should be by negotiation and should:
    ▪ be the subject of one agreed target;
    ▪ have one week’s notice;
    ▪ feedback must be given if requested by the observed class teacher; and
    ▪ limited to a maximum of one observation per term.

**INTO School Representatives should display this Bulletin on the INTO noticeboard and make it available to school principals**
