Poetry for
Climate Action
&
Climate Justice

Be fair to others.

And always be equal.

Be fair to the Earth!

We need it to be sustainable!

Because Earth is not able

For you taking all the fossil fuels

Me, you, and Earth have always been equal.

Most people are not treated as people.

THE EARTH DOES NOT HAVE A SEQUEL!!

**The Earth, the Earth
The planet we live on
The crimes against it cannot be forgiven.
The creator of life, the centre, the source
People doing evil with no remorse.
We extract the oil.
We tear up the soil.
It`s stripped of its bearings.
We need to start caring.
The pollution is in the air.
Humans live without a care.
If we want to keep going
The oil needs to stop flowing.
Trees need to start growing.
We pollute the ocean.
When will we get the notion?
The world will soon be finished.
The atmosphere diminished.
If we treat the world fairly
Our exit mightn`t be so early!**
