### Deployment of Teachers Undertaking the Graduate Certificate Programme:

While teachers are completing this programme and for a reasonable period of time following completion of the programme, it is advised that school management in all types of recognised schools make every effort to ensure that autistic pupils continue to benefit from the teacher’s knowledge and expertise in this area, through assigning the learning and teaching of autistic pupils to the teacher concerned. Collaborative practices, such as team-teaching, can also form a part of these arrangements.

In nominating a teacher to participate, the school principal must give a commitment that the teacher will be allocated a significant role in teaching autistic pupils for the duration of the programme, and for a reasonable period into the future, in accordance with the needs of the pupils in the school. This significant special education teaching role should be reflected in the way the teacher is deployed/timetabled.

In order to participate in the programme, teachers will need access to a computer and the Internet.

Candidates should note that evidence of having completed Garda vetting is required for participation in the course.
